Prominent Operators Landed the Bonanza Yesterday.

SPLENDID STRIKE IN O. K.

BINGHAM SMELTER'S RECORD FOR FORTY-THREE DAYS.

Yesterday afternoon a deal was consummated whereby, on a consideration approximating \$50,000, about threefourths of the capital stock of the Copper Ranch company, owning seventeen claims in Rocky district, Beaver county, about midway between Milford and Frisco, passed into the hands of I cal and eastern capitalists, and the ofand eastern capitalists, and the of-ficial roster of the organization was made up of new names. The chief pur-chasers are R. C. Chambers Mountain view and the doctor's recent examinations of the chasers are R. C. Chambers, Moses ground have convinced him that it can Thatcher and Jacob West, the latter of Thatcher and Jacob West, the latter of Logan, while the names of eastern cap-talists, not released, also figure in the proposition. The control was delivered by Arthur Manke with it, he could not perdict, but the chances are that sooner or later by Arthur Murphy and P. L. Prebble of Mercur and other holders in this oity, and the deal was worked up and consummated by B. T. Lloyd, who also figures in the new company.

At the reorganization R. C. Chambers made president Massa Thatcher

director. Another name is yet to be added to the board, but whether a local man will be selected, or whether the eastern end of the string will be given representation is yet to be determined.

representation is yet to be determined. The company's possessions cover about two miles in length of the same great mineral-bearing zone occupied by the O. K. to the west, and the Montreal, owned by the Glasgow & Western company, and adjoining it on the east. The main vein or lode is from 100 to 150 feet wide, and experts have repeatedly declared that every pound of rock lying between the porphyry hanging and lime footwalls will pay to mine, or, rather, quarry and treat, as careful estimates show that it will average 4 to 6 per cent copper, aside from the of per cent copper, aside from the lver and gold values it contains. On the eastern end of the ground, and ithin a few hundred feet of the Mon-

treal, two cross-fissures traverse one of the claims about 100 feet apart. No. 1 is twelve feet wide, and the other is sixty-six feet on the surface. On No. 1 a sixty-foot incline has been sunk, from which a 42,000-pound trial shipment gave returns of 6½ per cent copper, \$1.85 in gold and six ounces silver, the ore containing sufficient iron, lime per, \$1.85 in gold and six ounces silver, the ore containing sufficient iron, lime, etc., to make it a fine self-fluxing smelting proposition. In No. 2 the ore is more sillcours, and carries all the way from \$\frac{1}{2}\$ to 50 per cent copper, with modest values in gold and silver. It has been opened with a ninety-foot shaft and a twelve-foot crosscut from the bottom, all in good ore. This great fissure will quarry 4 to 6 per cent copper, three to ten ounces silver and \$1.20 to three to ten ounces silver and \$1.20 to

On the west end of the property, 10,200 feet distant, a 110-foot incline has been sunk on the hanging wall side, and in the bottom a very rich copper sulphide ore makes in stringers and bunches. The ore from the forty-foot crosscut at the bottom will average 14 to 15 per cent copper, with the regular accom-paniment of gold and silver, while iron and lime occur in admirable propor-tion to make it a self-fluxing product,

A number of eminent experts have reorted on the property at different limes, and not one of them but has declared it to be a magnificent prop-

Manager Lloyd says preparations for carrying out an extensive plan of development are well under way, and operations will begin in a very few weeks. The Copper Ranch, with all the ups and downs it has met with in the past, is now in fair way to be converted into one of the great copper bonanzas of the country and district that is regarded as the coming greatest red lanager Lloyd says preparations for regarded as the coming greatest red metal producing section in the west.

RICH MAJESTIC ORES.

oc mpany's several properties between Milford and Frisco, in Beaver county. At the O. K. mine a most sensational strike has just been made on the 200 level, where the entire face of the level, where the entire face of the cross-cut being run from the shaft for the foot wall is in sulphide, or a combination of oxide and sulphide copper ore that gave 37.2 copper, 7.20 ounces silver and \$6.80 in gold per ton, a showing that makes the market value of the rock exceed \$125 per ton. The O. K. vein is about 100 feet wide and the snaft is being sank on an incline that will reach the hanging wall at a depth of about 300 feet. The cross-cut on the 200 level had been advanced some fifteen feet in the ordinary ore when the rich streak from which the above assay came was encountered, when the Figh Streak from which the above assay came was encountered, and after it had been penetrated for four feet. There was still some dis-tance to run to reach the foot wall, and when The Herald's informant left the mine there was nothing to indicate when the rich streak would be passed through or how far it might extend in each direction along the vein. A forty or fifty-pound specimen of the ore was brought up and will be a probably be proposed or which the research of the ore was brought up and will be a probably be proposed or which the research of the ore was brought up and will be a probably be proposed or which the p of the ore was brought up and will probably be placed on exhibition to-morrow. The shaft is now down 275 feet and the character of material coming out indicates that the same conditions may be looked for on the 300 as those found on the 200 level. The gentleman reports that there is any amount of ore on the dump that will average better than 6 per cent copper and modest values in silver and gold. Work is progressing steadily and everybody about the inine is most enthusiastic over the outlook for the futhusiastic over the outlook for the fu-

At the Adelia, another of the company's properties, a ten-foot chute of high grade silver-lead ore is being developed with most gratifying results. A sample of the hard carbonate ore with which the chute is interspersed on the 200 level was submitted to the assayer yesterday and returns showing 62.4 per cent lead, 392.40 ounces silver and 5.8 per cent copper were received. assayer yestering and the sale of 62.4 per cent lead, 392.40 ounces silver and 5.8 per cent copper were received. The assay, of course, does not represent the value of the entire ten teet, but all of it affords a most excellent average of shipping values.

The other properties of the company are all looking exceedingly well and a recies of flattering demonstrations are series of flattering demonstrations are promised during the season.

SINGHAM SMELTER.

What it Has Done Since Starting

Up. On Feb. 1, the Bingham Copper & Gold company began operations at its new smelter by blowing in the first furnace. On the 25th the second furnace was started and from the first hour up to date not a hitch has occurred and not a moment has elapsed curred and not a moment has elapsed during which matte was not flowing in a steady stream. During the period named up to yesterday over 1,200 tons of matte had been produced and sold to the American Smelting company and all of 200 tons more were ready for sampling and convertion bits cash. Figures even approximating the value per ton of the matte were unobtainable, but expessing it at \$75 the total would

and an of 200 tons more were ready for sampling and conversion byto cash.

Figures even approximating the value per ton of the matte were unobtainable, but guessing it at \$75 the total would be \$105,000, and that with the second

furnace in operation only seventeen out of the forty-three days. With the ore from the Grand Central and Tesora going through with the Bingham ores, the estimate is probably far too low,

the estinate is probably far too low, but it is near enough to show the possibilities of the plant, which is now treating an average of more than 300 tons per day, the capacity originally calculated for the three furnaces.

No crowding has been resorted to and the opinion is expressed by Superintendent Nutting that he can handle 500 tons in three furnaces when occasion demands without a particle of trouble. The new smelter is making a great record.

MOUNTAIN VIEW TO RESUME.

Possibility That it May Soon Be Combined With the Yankee.

Dr. P. A. H. Franklin of the syndicate of eastern capitalists bearing his name was approached yesterday concerning the rumor that a consolidation of the Yankee and Mountain View com-panies' properties was on the tapis. He stated that it was yet too early to say that anything of the kind would be ac-complished, but he said the Franklin syndicate held stock in the Mountain View company and feit sufficiently in-terested in the future of the property to put a force of men at work developto put a force of men at work develop combination of interests will be

consummated by B. T. Lloyd, who also figures in the new company.

At the reorganization R. C. Chambers was made president, Moses Thatcher vice president, B. T. Lloyd secretary and general manager, and Jacob West, director. Another name is yet to be added to the bear and president of the control of the con

Acquires Ground on South End of the Daly.

(Special Correspondence.) (Special Correspondence.)

Coalville, March 15.—An option to purchase and agreement to sell was filed for record with the county recorder on the 13th inst. by which Mrs. Ellen M. Hill agrees to sell to Solon Spiro all of her interest, being an undivided 500 feet in the John Mackey, patented as lot No. 518, and 750 feet in the Lily of the West, lot 514, mining claims, both adjoining the Daly on the south, and all other rights she has in said purchase and agreement to sell was filed for record with the county recorder on the 13th inst. by which Mrs. Ellen M. Hill agrees to sell to Solon Spiro all of her interest, being an undipeared Spiro all of her interest, being an undi-vided 506 feet in the John Mackey, pat-ented as lot No. 518, and 750 feet in the Lily of the West, lot 514, mining claims, both adjoining the Daly on the south, and all other rights she has in said claims. Also all her right, title and in-terest in the Minnisink claim. All sit-uated in the Unitah mining district, Summit county. Utab. The considers Summit county, Utah. The consideration is \$2,500, of which the sum of \$250 is paid down and the balance of \$2,250, payable on the 12th day of May, 1901, or as soon as the first party secures a proper title to the said John

cures a proper title to the said John Mackey and Lily of the West claims, or the above stated interests therein.

A warranty deed is placed in escrow in Wells, Fargo & Co.'s bank conveying the above interests to Mr. Spiro, which is to be delivered and final and full payment made as soon as proper title is secured by first party. The instrument is dated March 12, 1901.

Mrs. Hill was formerly a resident of Park City, but now of Eureka.

SIZING UP BEAVER MINES.

An Agent of a Smelter Combine

Gathering Data. A gentleman whose name is withheld for the present by request is now engaged in rounding up all the different mining camps in Beaver county, making, notes on their distance from the railroads, the number of mines working, railroads, the number of mines working, the character and, so far as possible, he values of the ores, as well as the tonnage they are capable of supplying now and their chances of increase in the future. He is understood to be gathering data of this description in the interests of a smelting combination the identity of which has not yet been divulged, though it is thought to be one having no connection with any of the companies now operating in this state.

This mysterious emissary is reported to be going about his work with the utmost attention to detail, taking in

that he may be pursueded to explain for whom the work was undertaken. Another Oil Company.

The Grand Central contributed eleven cars of ore to the capacious bins of the Bingham Copper & Gold company's smelter yesterday.

Monroe Wilkin:on returned to the Mammoth mine yesterday, after spending two days in the city on business connected with the company.

not be learned.

Charles A. Tewksbury, one of the old time business men of the Park, came down from camp last night and registered at the Cullen. He says the old burg has not been as lively in years, and while there are more men now employed than at any time in the history of the camp, he feels certain that the number will be increased 500 or 600 more this year.

Adam Peterson, the well known Parkite, who is conducting operations at the Bell Mining company's lead property north of Grantsville and west of the lake, came in from camp yesterday and will go out to the Park for a few days this morning. He says the tunnel recently started to tap the ledge at a depth of between 300 and 400 feet, has been advanced fifty feet, with about 300 more to go.

A certified copy of the articles of increase which are the says the translations of the says the translations of the says the tunnel recently started with about 300 more to go.

with about 300 more to go.

A certified copy of the articles of incorporation of the Annie Laurie Mining company, organized under the laws of West Virginia, and with headquarters at Chicago, was filed yesterday with the secretary of state. A certificate was also filed designating Walter G. Filer of Kimberley the company's resident agent for Utah. The mpany is capitalized at \$600,000 and is sating the Annie Laurie mine in Gold Moderatan district.

conduct. In none of the cases was sufficient cause shown, in the judgment of the court, to warrant the girls and the boy being sent to the reformatory,

clined to be wild and requestly she had no control over her. Police Sergeant Janney testified that Ruby was often seen in the company of bad girls and that she had expressed a desire to be sent to the reform school. Representative A. L. Hamlin informed the court that Miss Craft was in the habit of running around with vicious girls.

The case of Catherine Knox, the orphan girl who was assaulted a few nights ago, was next considered. C. C. Brooks, with whose family Catherine formerly lived until she became so unruly that she sought shelter elsewhere, and Edwin J. Sawyer, her uncle, told the court of the girl's wayward conduct, and Sergeant Janney and Officer Pack supplemented the evidence against her. It was brought out that Miss Knox is addicted to the mor-phine habit and that she had been

before the bar of justice and announced her intention of finding good homes for the girls and helping otherwise to affect their reformation.

fect their reformation.

Clarence Tripp, the lad whose habit is to run off with vehicles tied to hitching posts and to disobey the wishes of his widowed mother, begged to be given another chance before being sent to the reform school, and the court obtained from him a promise that he would be a good boy hereafter.

Mrs. Tripp, Miss Wingerton, A. B. Levy, Sergeant Janney and Patrolman Davies appeared as witness

KING'S SON STARTS ON TOUR OF WORLD

Portsmouth, England, March 16.+ Among the firing of a royal salute by the assembled fleet and hearty cheers from the concourse of people gathered at all points of vantage, the steamer Ophir, with the Duke and Duchess of Cornwall and York on board, started at about 4 o'clock this afternoon on the voyage which is not to terminate until their royal highnesses have made a their royal highnesses have made a tour of the world, including the British empire. Troops and bands playing the national anthem lined the quays, and all the ships were manned and dressed, all the ships were manned and dressed, brilliant groups of naval and civil officials, in full uniform, with masses of the public forming a combination showing both the state and popular character of the send-off. King Edward and Queen Alexandra, on board the royal yacht Victoria and Albert, with eight torpedo boat destroyers, accompanied the Ophir a few miles out.

The day was a busy one for the members of the royal family. In spite of the cold and wet weather, large crowds journeyed to this place from the surjourneyed to this place from the sur-rounding towns to view the ceremonies connected with the departure. The har-bor was gay with bunting and all the ships were dressed.

Before noon the duke and duchess left the Ophir and joined King Edward and Queen Alexandra on board the royal yacht Victoria and Albert, where their yacht Victoria and Albert, where their majesties passed the night. The royal party soon afterward landed at the jetty, where King Edward conferred the Victoria medal on the blue jackets of H. M. S. Excellent, who dragged the funeral gun carriage of Queen Victoria after the horses became unmanageable at Windsor railroad station. The members of the royal party had luncheon on the Ophir.

on the Ophir. on the Ophir.

After luncheon the king toasted the Duke and Duchess of Cornwall and York, and wished them a prosperous voyage. His majesty said that one of the objects of the tour was to express appreciation of the royal help rendered by the British colonies in the South African comparison.

African campaign.

The Duke of Cornwall and York proposed the king's health. The guests at the luncheon, who numbered about seventy, included Joseph Chamberlain.

After their majesties returned to the Victoria and Albert, the preparations for the departure of the Ophir were completed. The royal yacht left the harbor shortly in advance of the Ophir, and as they passed the historic flagship. African campaign. harbor shortly in advance of the Ophir, and as they passed the historic flagship Victoria, the crews of the warships to port manned sides and gave the travelers a parting cheer. Simultaneously the naval guns fired a royal salute. This was taken up by the shore batteries and repeated by the cruisers in the roadstend.

The sky was overcast, but otherw The sky was overcast, but otherwise the weather was fine when the Ophir cast off her moorings and started on her long voyage. Eight torpedo boat destroyers steamed astern and remained in close attendance until the Ophir and royal yacht parted company at Spithead, whence the cruisers Diadem and Nioble escorted the Ophir to sea while the destroyers carried the dem and Nioble escorted the Ophir to sea, while the destroyers carried the royal yacht back to port. Their majes-ties then returned to London. The last farewell signals were ex-changed between their majesties and the Duke and Duchess of Cornwall and York near the Nab lightship, though their vessels remained in sight of each other until the Ophir rounded the end of the Isle of Wight and entered the channel, bound for Gibraltar.

NEGRO WOMAN IS

KILLED BY A MOB

Nashville, Tenn., March 16.-A negro woman named Ballie Crutchfield, living near Rome, Smith county, was mur-dered last night by a mob that visited her home about midnight. She was taken from her cabin and carried to the bridge over Round Lick creek.

Her hands having been tied behind her, she was shot through the head and her lifeless body thrown into the creek. The coroner's jury returned a verdict that she came to her death at the hands of unknown parties. She was suspected of looting a pocketbook of \$120 which had been lost. Two of Crew Drowned.

San Francisco, March 16.—One of the boats of the sealing schooner Enter-prise, anchored at Drakes bay, capsized today and two of her crew, Leonard Barr and Frank Irwin were drowned. Captain Gullen, who was also in the small boat, was saved.

Ripper Bill is Valid. Scranton, Pa., March 16.—The Lackawanna county court today decided that the "ripper" bill is valid and constitutional. The act is sustained in a lengthy opinion written by Presiding Judge Archbald.

Papa Jim Going to Europe. New York, March 16.—Eugene Zimmerman of Cincinnati, the father of the Duchess of Manchester, and Miss B. Evans, aunt of the duchess, sailed for Livers and Miss State of the S Liverpool today on the stamship Um-

BILL INTRODUCED, PROVIDING FOR HER SUPPORT.

their department. They state that while wages paid in the territory of Hawaii are larger than those on the mainland, the cost of living is much

greater.

The sessions of the legislature for the past week have consisted principally of the reading of various bills and the addition of amendments to a number of them. The first concurrent resolution of the legislature was passed. It provided for a committee to study the

tion of the legislature was passed. It provided for a committee to study the subject of taxation.

An attempt was made in the house to pass a bill limiting public work to eight hours and permitting only American citizens to hold such positions. After some debate the bill was amended in order to except expert labor as it might be necessary from time to time to bring people here to superintend important work.

Speaker Akina ruled that English was the official language in the legislature and it was not necessary to interpret speeches spoken in English into Hawaiian, even though the majority of those present might not know what was said.

Among the most interesting bills presented to received.

Among the most interesting bills pre Among the most interesting bills presented were those requiring wires to be placed underground in the b siness part of the city, the adoption of an official flag for the territory, the education of ten indigent youths in America at public expense. Notice was also given of a bill which is to be introduced providing a pension for ex-Queen Liluokalani. Notice was also given of a bill which will repeal all of the present severe gambling laws of the territory.

Found Dead in His Room. Vancouver, B. C., March 16 .- A special from Nanaimo says that Arthur Bullock, a capitalist, was found dead in his room in the Queen's hotel today. The hotel was his own property, and it was Bullock's custom, when retiring, to leave orders that on no consideration should he be disturbed. He was last seen on Tuesday, and it was not until today that his door was forced open. He had probably been dead three days when found. Bullock had formerly been teller in a Los Angeles bank, and was highly connected in England. Buy Mexican Central Stock.

New York, March 16.—It is authoritatively announced that Spencer & Co., have purchased the total amount of Mexican Central stock and income bond holdings of the Mexican National Constructing company.

## GARDNER DAILY STORE NEWS

\*\*\*\*\*

You'll hear a good deal of millinery talk the next few weeks. More, as Easter ap-

proaches. Then why not talk millinery for men? It's all here. That's the kind we sell-

though. And we want it understood that we sell more and better millinery for men than is sold elsewhere in

a little here for Ladies,

the town. There are Hats here as low as a dollar, Fedora and Derby styles.

The next grade is a dollar and fifty cents, all shapes, Then our great two dollar and fifty cent hats--look just like five dollar hats, and for a fact will outwear most of the ones we've seen; all shapes and colors in this grade. The next is our \$3.50 line, and if we but dare put the

maker's name in, there wouldn't be enough here to go Millinery for Boys, too, 50c to \$2.00.
